

Editing pages & governance docs

General editing + the governance documents.

Standard pages

About, History, Governance, Contact, policy pages etc. are plain HTML files in the repo. Edit the text in place; the shared header, footer, menu and social/arcade dials are injected automatically.

Governance documents

donations-policy.html, whistleblower-policy.html, workplace-policy.html and donations-register.html hold the party's policies. The **Donations Register** table is searchable/sortable — edit its rows in the file. **Conditions of Use** is a "work in progress" placeholder to be filled in later.

Menu & dials

The top menu is controlled site-wide by **menu/menu.txt**. The left dial is your social links; the right "arcade" dial holds Operation Haines, Integrity Defence, Rorts Watch and Don & Jan.
